Notice to Contractors

BLDG 260 BACnet Conversion Project

The Work of this Contract involves the building automation, mechanical and electrical requirements necessary to convert the existing Alerton Building Automation (BACS) System to the open-protocol, non-proprietary Niagara AX platform DDC system for the Army Aviation Support Facility (AASF) in Bangor, Maine. The AASF is a 123,347 sq ft facility that contains three aircraft maintenance hangars as well as various offices, classrooms, medical, storage, communications, technical and physical fitness facilities. Facility has, but is not limited to, multiple boilers, air handling units, a standby generator, a photovoltaic power supply and solar wall panels, each with their necessary accessories that must be integrated into the new Niagara AX Platform. Contractor shall provide and install all wiring, piping, controls, accessories, and miscellaneous repairs required for a complete and operable system in accordance with Plans and Specifications prepared by Cordjia Capital Projects Group. The cost of the work is approximately \$ 248,445.00. The work to be performed under this contract shall be completed on or before 31 March 2014.

1. Sealed Contractor bids for the project noted above, in envelopes plainly marked "*Bid for BLDG 260 BACnet Conversion Project, "Project 23SR13-406-D "*", "*Bid #14-009 "*" and addressed to:
